

IN ORDER TO SELECT A DISPOSER, THREE IMPORTANT FACTORS MUST BE CONSIDERED.

**1. Desired speed of output.**

Note: The output of a disposer does not increase by increasing horsepower. The only way to increase output is to increase the Rotor/Turntable size.

Example: A 3 H.P. disposer is available with an 8 5/8" or 10 5/8" Rotor/Turntable. A disposer with an 8 5/8" Rotor/Turntable will take longer to dispose of the same amount and type of waste as a disposer with a 10 5/8" Rotor/Turntable.

**2. Type of Waste.**

- a. Light Waste - vegetables, produce, etc.
- b. Medium Waste - mixture of light waste, poultry bones, cooked bones, etc.
- c. Heavy Waste - meat, raw bones, raw potatoes, etc.

**3. Volume to be handled.**

- a. Small Volume - 240 Pounds Per Hour
- b. Medium Volume - 1480 Pounds Per Hour
- c. Large Volume - 2000 Pounds Per Hour
- d. Huge Volume - 2600 Pounds Per Hour

NOTE: Volumes are based on medium type waste.

**SERIES - A** (15" Rotor/Turntable) - Mass feeding institutions and central waste rooms, salad commissaries, or large produce prep stations. EX: Prisons, Mess Halls, Universities

- 5 H.P. - Huge volume of light waste
- 7.5 H.P. - Huge volume of medium and heavy waste
- 10 H.P. - Huge volume and constant peak loading of heavy waste

**SERIES - B** (10 5/8" Rotor/Turntable)-Dishwashing areas and all food prep areas of large restaurants and institutional kitchens. EX: Cafeterias, Hospitals, Nursing Homes, Hotels, Schools and Prisons

- 3 H.P. - Large volume of light waste and large salad prep areas
- 5 H.P. - Large volume of medium and heavy waste for medium and large restaurants
- 7.5 H.P. - and 10 H.P. are also available

**SERIES - C** (8 5/8" Rotor/Turntable) - General food waste in small or medium restaurants. Salad prep areas, dishwashing and pot sink areas of average institutional kitchens. EX: Smaller Volume; Hospitals, Nursing Homes, Hotels, Schools

- 1.5 H.P. - Medium volume of light waste
- 2 H.P. - Medium volume of medium waste
- 3 H.P. - Medium volume of heavy waste
- 5 H.P. , 7.5 H.P. and 10 H.P. are also available

**SERIES - D** (6" Rotor/Turntable) - Salad prep areas and areas of small volume and light waste. EX: Schools, Churches, Snack Bars, Clubs and Nursing Homes

- 3/4 H.P. - Small volume of light waste
- 1 H.P. - Small volume of medium waste
- 1.5 H.P. and 2 H.P. are also available

Note: Refer to Installation Data Sheets for voltage and phases available.
